

SentiSync exposes the comments behind every aggregate signal

The live path stays compact; the offline path records where the model came from.

LIVE INFERENCE

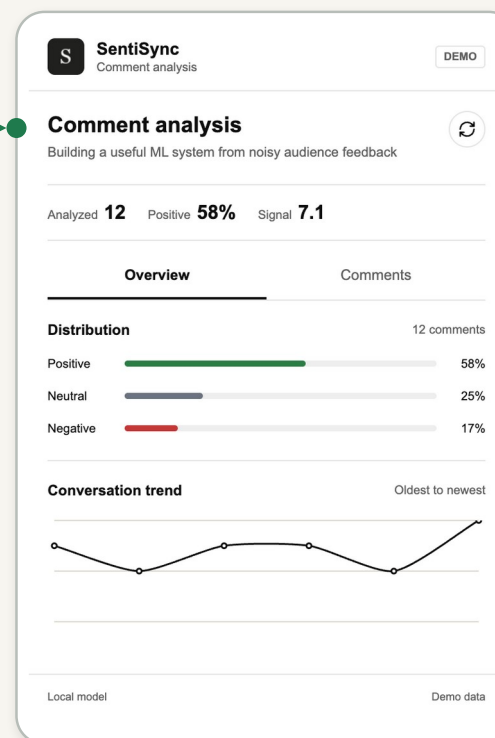

OFFLINE MODEL PIPELINE

loaded at runtime

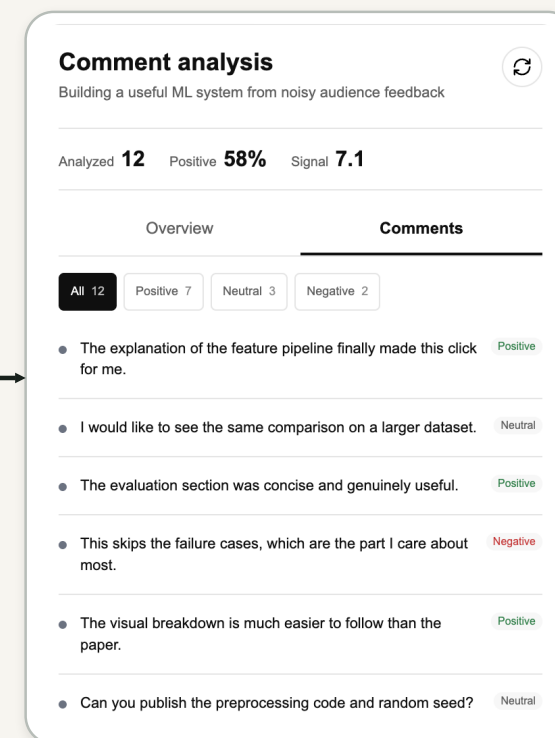

EXTENSION OVERVIEW

Bundled demo output

open a label

COMMENT-LEVEL EVIDENCE

Raw text and model label stay visible

EVIDENCE BOUNDARY

Screenshots show bundled demo fixtures. The classifier is trained and evaluated on Reddit labels, then applied to YouTube comments; cross-domain performance has not been measured.
